

SILVERSTREAM
CHAROLAIS . HEREFORDS

BULL SALE 2015

WEDNESDAY 10TH JUNE 2PM
On property, Greenpark, Christchurch

Welcome to our 2015 Silverstream Annual Bull sale catalogue. This year we are offering 80 Bulls, 66 Charolais and 14 Herefords. We are really pleased with this year's line up. This will be our second year with the Herefords and we think they are a really even line up representing our perception of where we see the breed fitting the industry. We received really positive feedback on the bulls we put up last year and were humbled by the support we received in our first year. We are delighted with this year's line up of Charolais. They are strong from start to finish and believe there are some bulls of stud quality right through to the last pen.

We are excited about the beef industry right now. Anna and I went to the U.S back in January and you would have to come back feeling confident that we should be in for a sustained period of solid prices. We have been saying it for a while now that worldwide beef cow numbers have been slipping. Climate and markets have meant farmers worldwide have not been encouraged to retain females. While the industry retrenches, it has the effect of putting more beef on the market due to more cows being culled and replacement heifers being slaughtered thus further suppressing the price. This looks to have stabilised and we are seeing solid pricing. It is not that often that you see beef prices lifting in the autumn. This year we have just under 1000 mainly Charolais cross steers and heifers on fodder beet along with 100 18 month cattle. The calves were a credit to their vendors who have done well in a trying season to turn out cattle of such quality. So far we are going well and have started transitioning the calves onto beet. The catalogue has again had some changes. Our old catalogue was struggling to fit everything in and it was getting bulky. We either had to cut back on photos or upscale the size of our catalogue. We enjoy being able to bring you a catalogue full of good pictures and as much information about the bulls as possible. We hope you enjoy the new catalogue and are just sorry it won't fit into your back pocket anymore.

We look forward to your attendance in June. If you need any help or advise let us know.

Brent Fisher

SALE INFORMATION

CONDITIONS OF SALE:

1. All lots will be sold subject to the usual conditions governing action. Sales held under the auspices of North Canterbury Stock and Station Agents Association. Such conditions of sale will be posted up in the yards.
2. 6% purchasing commission to recognised companies registered with NZ Stock and Station Agents Association.
3. Any dispute shall be settled by an arbitrator appointed by the auctioneers. The award of such arbitration shall be borne as ruled by arbitrator.

GURANTEE:

1. All bulls are guaranteed breeders. If there are any claims made against the bulls. They should be made in writing within six months of the sale and accompanied by a veterinary certificate. Should the bull fail to breed to a satisfactory level this animal will either be replaced with an animal of comparable value or a credit given at the following sale. This does not include interest, expenses, costs and damages.
2. All bulls are sold with a 3-season foot guarantee which guarantees they are capable of natural service for a minimum of three seasons. This guarantee only covers faults due to poor conformation and doesn't cover obvious negligence on the part of the purchaser or faults due to injury or abscess. Any claims must be made in writing and accompany a veterinary report within 26 months of sale on a prorated basis. Remuneration will be made in the form of either a replacement animal or a credit at the next sale, with the bull being returned to Silverstream. This guarantee does not include interest, expenses, costs or damages.

DELIVERY:

Delivery will be made as soon as possible after the sale. North Island buyers- free delivery to Feilding.

INSURANCE:

Insurance is recommended as each lot shall be at the risk of the purchase at the fall of any hammer. No error in misdescriptions will in any way invalidate the sale.

HEALTH:

Silverstream is T.B. and Brucellosis accredited herd. Status C10. All bulls are tested and vaccinated for BVD.

BREEDING SOUNDNESS:

All bulls offered for sale have passed a semen test carried out by Xcell Breeding Services. A veterinary certificate available on request.

TRANSFERS:

Cattle are fully recorded and transferable within Charolais Breeders Nz Inc., located at Feilding.

MYOPHOSPHORYLASE TEST:

Myophosphorylase: (For Purchaser with Charolais or Charolais infused females). A number of bulls suitable for purebred production have been tested. On stat they label as NN (Tested Normal), NP (Tested Carrier), NT (Not Tested). It is advised that breeders with Charolais females purchase only NN bulls. Only NN bulls can be transferred.

SEMEN RIGHTS:

Silverstream retains the right to have semen collected for in herd use on all bulls. If this occurred it would be at purchasers convenience.

SALE DAY SAFTEY:

At Silverstream we have put a lot of effort bull temperament and it is our aim to continually keep improving this trait. All the bulls have had a significant amount of handling and we only put forward the bulls that display a satisfying temperament, however, there are risks associated with bull behaviour on sale day. Please be aware the bulls are being put under a lot of unnatural pressure on this day and they can fight and play. If you have limited mobility or have young children, It would be best to look at the bulls from outside the viewing pens.

SUPPLEMENTARY INFORMATION:

All the sale bulls have scan data available which was carried out by Bill Austin, a certified scanning technician. This scan data includes eye muscle area, rump and rib fat, and marbling. On sale day, the sale day weight and scrotal size will be available.

INSPECTION:

Visitors are always welcome to come and view the bulls prior to the sale. For those who cannot make it to see the bulls, there will be a DVD available to help make your selection.

REFRESHMENTS:

complementary refreshments, beverages and steak sandwiches will be available to those attending the sale.

BULL MANAGEMENT:

It is our aim at Silverstream to provide bulls capable of shifting to any environment. We aim to provide bulls with soundness and constitution to be able to achieve this. From weaning to yearling all bulls have been run together and from there have been split into three mobs of up to 30 bulls progressively culled.

Management and competitive environment gives us the most reliable performance information and sets them up to shift to their new environment.

EBV's

EBV'S that are in the catalogue are Australasian Charolais Breedplan run. We feel this system which contains significantly more large herds is a more reliable comprehensive breeding tool for us as breeders.

It is important to remember that they are still only an estimate of some productive traits which are relatively easy to measure, based on the amount of information available at the time. As stud breeders we see how animals EBV'S change from year to year. Even on proven high accuracy when more information is collected. In many ways they are like an opinion poll, the more you ask the more likely you will get the true feeling.

Out of the 60 bulls you could for example expect 20 bulls actual breeding value to be significantly different to their EBV'S. Because of this we recommend that EBV'S be used as a guide along with other information provided, if you require assistance please ask.

NB: For a full list of EBV'S or full pedigrees check the website: www.charolais.net.nz

COMMENTS: We believe that Evolution is the best sire we have bred here at Silverstream. He is such a complete bull with impeccable structure and soundness. He's a bull that carries a lot of weight in his length and width but on a moderate frame. He has done an amazing job in our herd with 18 sons sold last year and over 50 females gone into our cow herd. If you think his bulls are great well his females are exceptional. He passes his great structure and perfect feet onto all of his progeny. There is a very little throw out rate on his progeny with nearly 100% of all his calves making it to sale day going or into our herd. The Evolution cattle are so well put together and are such well balanced, good headed cattle. Evolutions Dam, Glossy S120 has been such a great old cow to have in our herd. She also produced Silverstream Columbus who sold to Fergus Templeton of Twin Rivers Charolais in our 2009 sale. Columbus is the sire of our two new herd sires, Focus and Frampton. She also produced Silverstream Geology, a magnificent sire who stands at Wayne and Maggie William's in Fox Glacier. We think good sires only come from the very best cows. We are extremely fortunate to have such a wonderful sire in our herd and the fact he is polled is a bonus. He will be available to look at on sale day to those interested.

2 YEAR OLD EVOLUTION DAUGHTERS

SILVERSTREAM EVOLUTION E168 Polled

PALGROVE XCEPT

SILVERSTREAM COLUMBUS C174

SILVERSTREAM GLOSSY S120

WAIMOE ORATOR O49

SILVERSTREAM OCELOT T42

SILVERSTREAM LEGACY L47

COMMENTS: This year will feature the first sons of Silverstream Focus. He is sired by Columbus, the maternal brother to Evolution and comes from the great Ocelot cow family. Focus is a great carcass bull who is leaving good commercial types of bulls. At 18 months Focus's raw fat scan was 11mm and 7mm over the rib and rump and he was straight grass fed. We thought this was a terrific trait to have and he is passing his softness on to his progeny. This bull holds his condition well, has an awesome top line and a great nature.

SILVERSTREAM FRAMPTON F17

WAIMOE RASTAS R90

SILVERSTREAM COLUMBUS C174

SILVERSTREAM GLOSSY S120

INDIANA

SILVERSTREAM CHANDLER V182

SILVERSTREAM CHANDLER R111

COMMENTS: This the first year we will feature sons of Frampton. Like Focus he is sired by Columbus but he is out of our very good Chandler cow family. This bulls pedigree is hard to beat with Glossy S120 on one side and Chandler R111 on the other (both who still remain in our herd) and 3 top French sires Indiana, Exclusif and Ijoufflu in there also. At the time we were supposed to sell Frampton at our sale 3 years ago he was 80kg heavier then the next bull. Frampton has the most exceptional growth on a very moderate frame. He carries his weight in his length and width and he is passing this on to his progeny who consistently weigh like lead. He is a powerful sire and has an extremely strong sires head and good strength of bone. We kept Frampton for his explosive growth and performance and believe he will breed bulls that will go on to produce top steers. Frampton has also bred some good strong female which we believe are so important to have in our herd.

LT WYOMING WIND 4020

KAIRUA TOM T1

KAIRUA PRISCILLA P10

INDIANA

SILVERSTREAM CHANDLER V161

SILVERSTREAM CHANDLER R111

COMMENTS: This year will be the last of the Benchmark sons for a while. Benchmark has done a great job breeding moderate and sound cattle over the last few years. He has many daughters in our herd and he is still here himself and still sound coming up 9 years old. He comes from an awesome cow who produced him at 2 years old. She is a terrific Indiana cow (a flush sister to Frampton's dam) who goes back to the great Chandler R111 cow. Benchmark's progeny always scan particularly well and are not extreme in their size or strength of bone. Look out for Benchmark's maternal brother at Lot 2.

REFERENCE SIRES

SILVERSTREAM DYNAMO D37

PALGROVE TRIBUTE

PALGROVE ZEPHLIN

PALGROVE RADIANT 16

SILVERSTREAM PERFORMER P38

SILVERSTREAM V84

SILVERSTREAM MANDY M33

COMMENTS: This is the last year we will be offering Dynamo progeny. Dynamo has done a terrific job in consistently producing good types of bulls for our sale. The Dynamo bulls have such great skins and softness. He has always bred safe types of bulls that have such a great temperament. Dynamo has left us a lot of females which have such great maternal attributes and we are sure they will last in our herd for years.

SILVERSTREAM PERFORMER P38

TILL

EXCLUSIF

REINETTE

COAT LEZARD

SILVERSTREAM HOUGHTY H83

BROOKFIELD OCELOT O17

COMMENTS: We just can't go wrong using this bull. A bull that was born over 15 years ago but a bull we still use with such confidence every year. Performer puts his stamp on his progeny especially that strong Performer head. Performer has been used both in Australia and Canada and has done a great job in both countries. Performer sons are moderate, sound and have a good muscle pattern. His daughters are nice cows who are quiet achievers. We still have many Performer daughters in our herd. He is a bull that is a curve bender. We use over heifers for his low birth weight but his calves really do grow on and perform.

PALGROVE ZEPHLIN

TALLOW WOOD EMIR

PALGROVE TRIBUTE

PALGROVE BRONWIN 15

WCR SIR DUKE 835

PALGROVE RADIANT 16

PALGROVE RADIANT 12

COMMENTS: Zephlin is our go to bull when we are looking for great structure, impeccable nature and good maternal attributes. Zephlin comes from the great Palgrove herd. We purchased and collected this bull over 6 years ago yet we seem to AI cows to him every year still! The Zephlin cattle have such great skins and a nice softness. Some of the best cows in our herd are sired by Zephlin so it's no surprise we keep using him. This is a bull we will still be going back to in years to come.

NEW SIRES

PALGROVE FORESIGHT (P)

PALGROVE AMBUSH
PALGROVE CARBINE
PALGROVE IDEAL 40
PALGROVE XCEED
PALGROVE LEONIE 16
PALGROVE LEONIE 8

*COMMENTS:*After using Palgrove genetics in the past with such success we thought it was about time we used another one of their sires. We saw Foresight 2 years ago at Palgrove and were so impressed with him. He was a polled sire that had such a huge carcass on him. He had such a great skin, great temperament and had so much power. Our first calves are due this year. Palgrove's first sons will sell at their sale this year.

SILVERSTREAM HOMELAND H3 (P)

SILVERSTREAM BRUMBY B89
SILVERSTREAM EVOLUTION E168
SILVERSTREAM GLOSSY S120
KAIRUA TOM T1
SILVERSTREAM OCELOT A30
SILVERSTREAM OCELOT U20

*COMMENTS:*The first Evolution son we kept and used. He has very similar attributes to his sire like the great presence, perfect structure and feet and a terrific carcass. He comes from a great cow family and is leaving progeny that look like the Evolutions. He had a heap of calves born last year so you can expect to see a few sons in the sale next year.

TINOR (Full French)

CONCILE
LAUREL
BUVETTE
GENK
ODETTE
LYDIE

*COMMENTS:*Two years ago we ventured over to France to look at Charolais cattle. Our trip did not come without a purpose though. At Silverstream we are very conscious of not losing the terminal qualities in our Charolais. So we went to France to find a bull that had strong carcass characteristics but was not too extreme in any way. We wanted a bull that had a good disposition and sound feet and structure. The bull we found was Tinor. Whilst we did not see Tinor himself (Due to extensive progeny tests the bulls are very old once they are released) we saw many of his progeny. We toured around several farms and continually picked out Tinor progeny that we loved. The Tinor cattle were not extreme in any way and we thought they would fit back into our herd very well. We have just weaned our first calves by Tinor and at this stage we are thrilled with them.

SILVERSTREAM GEDDES G102 (P)

SILVERSTREAM BOOKMAKER B87
SILVERSTREAM ENTICER E30
SILVERSTREAM JULIE A27
HIGHWAY STEFAN S52
SILVERSTREAM DOLLY V5
SILVERSTREAM T89

*COMMENTS:*Geddes is a recent polled addition to our sire pack. We kept this guy from our 2013 sale draft. He is sired by Enticer who bred bulls with a great carcass and good coats. The Enticer sons always sold exceptionally well. The first year they averaged over \$8,000. We took from this, that our commercial cliental wanted more bulls like it. So we kept Geddes to breed more of these good rugged types that were so greatly demanded. We thought Geddes was the best of the Enticer sons. He is out of a great old cow who at 11 years old is still very sound and has a great udder. Geddes also took the eye of Semex Beef who took a lease on the worldwide rights of his semen. He apparently had nearly 400 calves born in Canada this last season. His calves have shown to have a moderate birth weight and good coats like their sire. Unfortunately we were unable to use Geddes heavily the first year as he had to go into the semen collection centre but we look forward to offering the first couple of Geddes sons next year.

SILVERSTREAM IGOR I76

HBN: 083130076E

Born: 16.09.2013

COMMENTS: A great bull to start off the sale. We really love this guy. Igor is a moderate framed bull that has plenty of muscle, a great softness and a beautiful skin. He is out of a terrific cow who comes from the great Ocelot cow line. Ocelot D109's first calf as a two year old sold in our sale 4 years ago as lot 1 and was purchased by Muller Station. His full brother was sold 2 years ago to Lochiel Station. Igor has an awesome nature and scanned a whopping 138sqcm EMA along with good fats and IMF. This bull would make a great stud or commercial bull.

COMMENTS: Another top end Zephlin bull that is just so sound and correct. He has a great sires outlook with really good length and spring of rib. He is out of a tremendous Waimoe Rastas female that has consistently bred well for us. This is a real breeding sire that will breed. Zephlin daughters and grand daughters are in large numbers through our herd.

Purchaser: \$

COMMENTS: A real clean fronted soft skinned bull with excellent finishing qualities. His dam has been a really consistent performing cow over a long period. Dynamo has bred some really high quality progeny that have been sought after for their moderate frame and exceptional temperament. This bull shapes up well in a top pen of bulls.

CHANDLER R111 (g-grand dam)

COMMENTS: A polled Performer son out of a two year old heifer. Performer is a bull that we keep going back to. He has been an outstanding sire over so many years. This bull is just so thick. He scanned one of the highest EMAs in the catalogue. He has that great head Performer stamps on all his progeny and his great grand dam R111 is one of the best.

WENDY T63 (dam)

Purchaser:

COMMENTS: A very stylish young bull that was a twin and still has so much more in him. He is a polled Evolution out of one of our best cows. One of the best pedigrees you will find in the catalogue. His dam is the mother of Silverstream Enigma and Silverstream Franklyn who were both used in the stud. She is also the founder of the Wendy family. She has been a truly wonderful cow and is due to calve again this year at age 13 years. International is a bull who displays his sire's impeccable structure and great presence. A bull with a lot to offer.

FREDA P95 (dam)

Purchaser: \$

COMMENTS: Such a lovely lovely appealing bull! He is only a baby born the end of October and is the last calf out of a 15 year old Jonah cow. This old cow also produced Silverstream Chancellor who stood up at the Maungahina stud for many years and is now back here. This bull has such a good wide muzzle, perfect feet and structure. He is a moderate meaty bull but is a little show pony and loves to show himself off. He has a great nature. I think you would be happy to see him out in your paddock every day.

BABS B1069 (dam)

Purchaser:

\$

COMMENTS: The youngest Hereford bull on offer and was born a twin. This bull is moderate and meaty with a great nature and big panda eyes. This bull is still so young and has a lot more to grow out but he is a great type. His dam is one of our favourite Hereford cows.

COMMENTS: Another good coated, moderate, meaty type of Digga son to finish off the sale. This is a well balanced bull who has performed well in recent times. A safe bull to go with.

Purchaser: \$

FINDING EFFICIENCY WITH FODDER BEET

Some of the first steers wintered on fodder beet we killed.

Calves last winter grazing the SF Brigadier fodder beet behind a wire.

Carcasses off fodder beet displaying white fat and a good meat colour.

Strip grazing fodder beet last winter.

A fodder beet field day held at Silverstream last winter.

13-14 month cattle which were the first draft last November.

A giant fodder beet.

Calves following for their new break of fodder beet.

Harvested SF Suga Beet which is used as a supplementary feed.

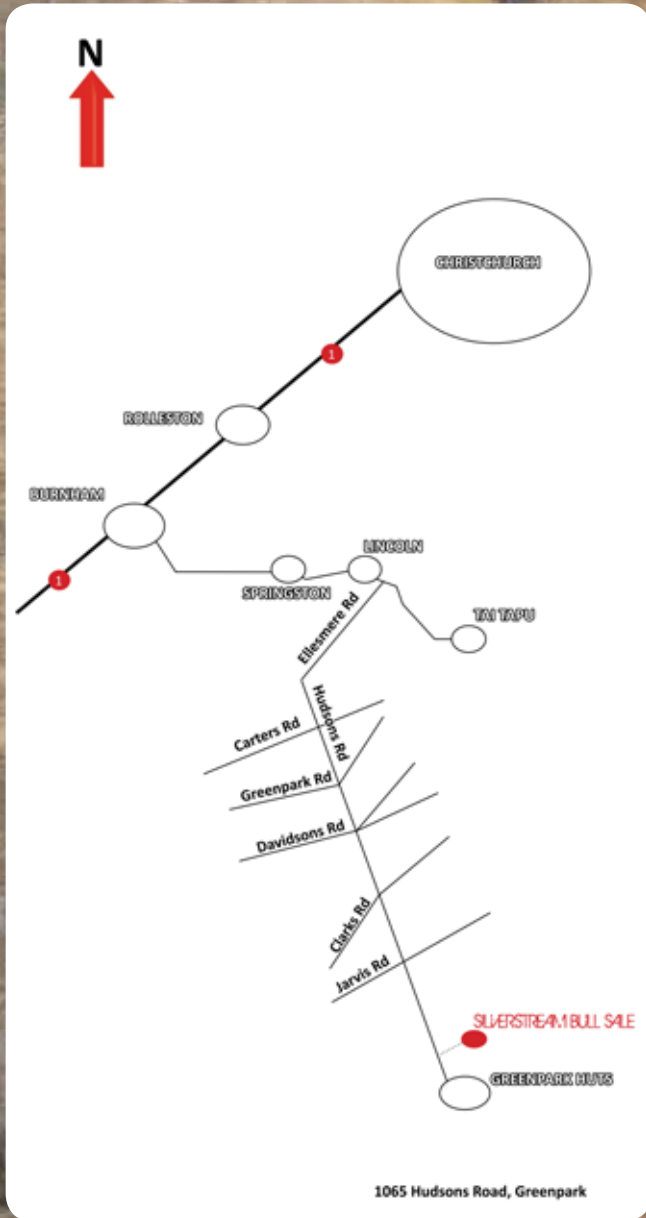

A line of stunning heifers we bought this year.

Two heifers wintered on fodder beet which won the champion pair of heifers in the Canterbury prime cattle show last year.
